On the day that a fund distributes a dividend a distribution or capital gains to shareholders, the fund's net asset value per share (for each class of shares) drops by the amount of the dividend or distribution per share, to reflect that the distribution has been paid out. The drop in the net asset value does not reflect a loss in the shareholder's overall investment value, but instead indicates that a portion of that value has been given to the shareholder as a capital gain or income dividend. Keep in mind that there may also be appreciation or depreciation in the fund value from the market activity on that day that will also be reflected in the NAV.

An investor should consider the investment objectives, risk, charges, and expenses of the Fund carefully before investing. The prospectus contains this and other information about the Fund. A copy of the prospectus is available at the link below or by calling Shareholder Services at 1-877-892-4226. The prospectus should be read carefully before investing.
